The ‘Marketing of Madness’ is the definitive documentary on the psychiatric drugging industry. Here is the real story of the high income partnership between psychiatry and drug companies that has created an $80 billion psychotropic drug profit centre.

But appearances are deceiving. How valid are psychiatrists’ diagnoses – and how safe are their drugs? Digging deep beneath the corporate veneer, this three-part documentary exposes the truth behind the slick marketing schemes and scientific deceit that conceal dangerous and often deadly sales campaigns.

**In this film you’ll discover that...**

- Many of the drugs side effects may actually make your ‘mental illness’ worse
- Psychiatric drugs can induce aggression or depression
- Some psychotropic drugs prescribed to children are more addictive than cocaine
- Psychiatric diagnoses appears to be based on dubious science. Of the 297 mental disorders contained with the Diagnostic and Statistical Manual of Mental Disorders, none can be objectively measured by pathological tests. Mental illness symptoms within this manual are arbitrarily assigned by a subjective voting system in a psychiatric panel
- It is estimated that 100 million people globally use psychotropic drugs

The Marketing of Madness exposes the real insanity in our psychiatric ‘health care’ system: profit-driven drug marketing at the expense of human rights.

This film plunges into an industry corrupted by corporate greed and delivers a shocking warning from courageous experts who value public health over dollar.

"If you, a loved one, or anyone you know is taking drugs recommended by an MD or Psychiatrist for Anxiety, Depression, Bi-Polar, ADHD, Obsessive Compulsive, Schizophrenia etc... then this film is an absolute must watch."

- James Colquhoun - Producer Director, ‘Food Matters’ Movie
The Marketing of Madness – editorial review

The Marketing of Madness- Are we all Insane?

There is no money in "normal".

From the makers of the award winning documentary "Making a Killing: The Untold Story of Psychotropic Drugging".

This is the story of the high-income partnership between psychiatry and drug companies that has created an $80 billion psychotropic drug profit center.

It exposes psychiatry’s fraudulent diagnosis to further sell their drugs to “normal” people.

And it works. Psychiatrists and drug companies have created a profitable market making over $150,000 every single minute of the day.

But by publicizing diseases creating the illusion of widespread mental illness, how safe are the drugs psychiatrists are prescribing to treat it?

It’s the story of big money — drugs that fuel a $330 billion psychiatric industry, without a single cure. The cost in human terms is even greater — these drugs now kill an estimated 42,000 people every year. And the death count keeps rising.

Containing more than 175 interviews with lawyers, mental health experts, the families of victims and the survivors themselves, this riveting documentary rips the mask off psychiatric drugging and exposes a brutal money-making machine.

This high impact presentation, two years in the making, exposes the destruction created by psychiatrists upon every sector of our society.

Graphic footage from showing psychiatrists in action, eye-opening interviews with medical experts and moving stories from victims and their families, make this the most complete and devastating documentary of psychiatric abuse ever produced.

Every person has the right to know the cold, hard facts about psychiatry, its practitioners and the threat they pose to our children.

Buy your own copies of the The Marketing of Madness DVD - one for yourself and the rest those you care for, to let them also know more to know the cold, hard facts about psychiatry!
